EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Julian Cohen on 6/6/05.

The application has been amended as follows:

In Claim 1, line 15 delete "outer".

In the specification, page 8, line 33, change "spring 7" to --spring 19--.

2. Claims 1-7 are allowed.

3. The following is an examiner's statement of reasons for allowance: The prior art of record does not anticipate the claimed safety device for a bolt-action firearm comprising; a safety control member capable of being selectively located in one of a first, second and third positions so as to control movement of the trigger and the bolt. The safety control member having a bolt blocking part capable of engaging with the bolt and first, second and third positioning holes arranged on a circle. The safety device further comprising a trigger blocking member slidably fitted in a sliding hole of a casing fastened to a lower part of a firearm receiver, the sliding hole being provided in the surface of one of the side walls of the casing on which the safety control member is supported. The sliding hole opening into a space in which the upper arm of the trigger moves, the trigger blocking member having a trigger blocking part capable of moving so as to be advanced into and retracted from a moving path of the upper arm of the trigger and a

spring urging the trigger blocking member fitted in the sliding hole toward the safety control member. Wherein the bolt blocking part of the safety control member is engaged with the bolt to block the movement of the bolt when the safety control member is located in the first position, and is disengaged to permit the bolt to be operated when the safety control member is located in the second or third position and the trigger blocking part of the trigger blocking member blocks the movement of the trigger when the safety control member is located in the first or the second position.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

4. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure. Lameiras Guede (US Patent # 5,752,338), Roemer (US Patent # 2,490,474), Couture (US Patent # 2,869,269), Baker (US Patent # 2,379,946), Knode (US Patent # 3,130,513), Weatherby (US Patent # 3,124,559), Guede (US Patent # 6,018,900), and Findlay et al. (US Patent # 5,551,180), which are all cited to show relevant safety mechanisms for firearms.
